Paris, France, March 8<sup>th</sup> 2024

# EIG, A LEADER IN INFRASTRUCTURES MANAGEMENT THROUGH CUTTING-EDGE EVALUATION AND SURVEILLANCE TECHNOLOGIES, ACQUIRES 3X ENGINEERING.

## 3X ENGINEERING IS AN INNOVATIVE COMPANY SPECIALIZED IN SOLUTIONS USING COMPOSITE MATERIAL TECHNOLOGIES FOR THE REPAIR OF INDUSTRIAL ASSETS.

Founded in 1990, 3X ENGINEERING - renowned innovator in composite repair & sustainability solutions of industrial assets - provides expertise in advanced composite materials and predictive engineering, empowering worldwide clients to extend asset lifespan, protect the environment and decrease the cost of asset ownership.

EIG now comprises three divisions: **EKOSCAN** serves as the «Diagnostic & Integrity Assessment Technologies» division,

incorporating recently acquired SOCOMATE & AUT brands. **INTACT** functions as the «Technology as a Service» division, fully merged with ARCANITE for North American activities. With the addition of **3X ENGINEERING**, EIG introduces a «Sustainability Technologies» division to become a world-leader in assets optimization.

THIS UNIQUE THREE-PRONGED APPROACH PROVIDES MORE VALUE TO CUSTOMERS IN ASSET INTEGRITY MANAGEMENT AND OPTIMIZATION:

**➤ ENSURING SAFETY**

Preventing accidents, catastrophic events like spills, crashes, and structural failures.

**➤ BOOSTING PERFORMANCE**

Minimizing leaks, downtime, and operational costs.

**➤ EXTENDING LIFESPAN**

Maximizing the life of critical assets while embracing sustainable technologies.

## CONTRIBUTING TO A SUSTAINABLE FUTURE

WITH OVERLAPPING CUSTOMERS AND PARTNERS ACROSS ALL THREE DIVISIONS – ASSESSMENT, SERVICES, AND SUSTAINABILITY – EIG ANTICIPATES SIGNIFICANT SYNERGIES.

Sales teams gain extended portfolios and global reach, while the newly formed sustainability division offers clients exciting new services.

This merger goes beyond optimizing individual assets. It positions EIG as a leader in responsible industrial

practices, keenly aware of the economic and environmental challenges of our time. By extending asset lifespans and promoting sustainability technologies,

EIG helps minimize waste, resource consumption, and environmental impact.
